

Astrological Research on UFOs

As a young man, I undertook numerous statistical research projects in astrology. Recently, I came across a nearly forgotten archive of my old work. Among them was a study based on the dates from Jacques Vallee's, book "Passport to Magonia: On UFO's, Folklore, and Parallel Worlds," where he gives, "...a comprehensive catalogue detailing nine hundred encounters spanning one hundred years."

Of the dates Vallee gave, there 855 that were exact. Below is a graph of the Sun signs for those dates.
